

ADDICTION AND THE ADOLESCENT BRAIN

WITH DR. RUTH
POTEE

Dr. Potee is a board certified Family and Addiction Medicine Physician. She serves as the Medical Director to various organizations as well as the Co-Chair of the Healthcare Solutions Committee of the Opioid Task force of Franklin County.

Dr. Potee is a nationally sought out speaker and recognized expert in the area of brain development and teenage risk taking.

Through this informational program, Dr. Potee helps to give a deeper understanding of addictive substances, including alcohol, marijuana, and opioids and their impact on the developing brain.

Dr. Potee engages communities in discussions surrounding substance use disorders and the challenges to raising healthy teens.

Come learn what we can do as individuals, families, and as a community to keep our kids safer, healthier, and substance-free through the adolescent years.

NORTH ANDOVER HIGH SCHOOL AUDITORIUM

THURSDAY
JANUARY 10TH
6:30 PM

THIS PROGRAM IS
FREE AND OPEN TO
THE PUBLIC

HIDDEN IN PLAIN SIGHT

Provided by The North Andover Police Department

Before listening to Dr. Potee's presentation, walk through NAPD's Hidden in Plain Sight display to identify various household items that could promote at-risk behaviors.

This display will be set up in the hall outside the High School Auditorium.
